

TODAY'S MOST TECHNOLOGICALLY ADVANCED METAL TREATMENT

Polytron Products Are The Most Advanced Lubricants In The World. Designed By American Scientists, It Is A Scientific Break Through In Lubrication Technology. Polytron Is A Penetrating Lubricant That Treats The Metal Friction Surface Reducing Wear And Tear Of Any Machine Significantly.

Increases
Efficiency

Reduced
Maintenance &
Operating Cost

Reduces
Downtime

APPLICATIONS

- Heavy Machines And Tools • Industrial And Automotive Gear Boxes.
- Differentials And Bearings. • Pumps, Air Compressors And HVAC.

BENEFITS

- Reduces Maintenance Costs Up To 60%
- Decreases Wear of Engine / Equipment Up To 95%
- Decreases Operating Temperature And Noise / Vibrations
- Protects Engine / Equipment Across Wider Range of Temperatures
- Provides Temporary Protection To Engine / Equipment In The Event Of Oil Loss
- Maximizes Engines Compression, Power / Torque & Fuel Efficiency
- Keeps The Surface Clean & Extends Maintenance Intervals Up To 2-4 Times.
- Neutralize Water In Fuel Tanks, Lines And Poor Quality Fuel

POLYTRON METAL TREATMENT CONCENTRATE

Polytron MTC Is A Unique Petroleum Based Formula That Is Compatible With All Types Of Engine Oils, Gear Oil And Other Industrial Lubricant Oils. MTC Treats The Metal Friction Surface By Penetrating The Metal Surface And Concentrating Original Metal Surface Into A New Polished Like Surface With Very Low Friction Into Quotient And 100 Times More Wear Like. As A Result It Dramatically Resists Wear And Tear And Improves Oil And Oil Filter Changing Intervals Of The Equipment/Machine/Engine.

POLYTRON FUEL CONDITIONER

Polytron Ultra Performance fuel Conditioner For Petrol And Diesel Fuels Is Scientifically Designed To Improve Combustion, Cleans And Lubricates The Working Parts Of The Fuel System And The Upper Part Of The Engine. Polytron Fuel Conditioner Dissolve And Removes Carbon Deposits And Prevents Future Harmful Build-up. It Also Improves Mileage And Overall Engine Performance.

POLYTRON PENETRATING LUBRICANT

Polytron Penetrating Lubricant Contains Metal Treatment Concentrate And Is Scientifically Blended To Be The Most Effective Whenever Rust, Corrosion Or Drag Is A Factor. Polytron Penetrating Lubricant Not Only Penetrates Through Extreme Rust And Corrosion, It Also Treats The Metal Surface To Reduce Friction And Wear. Use Of This Products Provides For Long Lasting and Smooth Operation Of Any Metal Mechanism.

POLYTRON EP-2 LITHIUM COMPLEX GREASE

Polytron EP-2 Lithium Complex Grease is Formulated with High Quality Base Oils And Lithium Complex Soap. The Natural Oxidation Stability Of This Formulation is Enhanced By Effective Oxidation Inhibitors. Polytron Ep-2 Lithium Complex Grease Combines High Temperature Stability, Extreme Pressure And Outstanding Anti-wear Properties With Excellent Water Resistance And Rust and Corrosion Protection. Mechanical Stability, Which Minimized Softening Under Server Shearing Conditions, Is Also Exhibited.
